Regulations concerning the validity and use of certificates in the Public Administration came into force on 1 January 2012. In compliance with these regulations, the Public Administration cannot accept or request certificates concerning information which is already in the possession of the Italian public administration; only self-certifications will be accepted. This does not apply to certificates which contain information which is not in the possession of the Italian public administration (e.g. "dichiarazione di valore" for qualifications obtained abroad).

Article 1 – General Information

1. Under the terms of Decree no. 270 of 22 October 2012 issued by the Italian Ministry of Education, University and Research, the Alma Mater Studiorum - University of Bologna, administrative office Bologna, will run the Summer School in “Chemical and Genomic-based strategies in the discovery of novel drug target” for academic year 2021-2022.
2. The programme has been set up on the proposal of FaBiT Dept and is run in collaboration with FaBiT Dept.

The programme lasts for 5 days, classroom training is delivered in English, awards 3 CFU credits and aims the following learning outcomes. In the last decade we have witnessed changes in the design and conduction of research in the biomedical field, resulting from the decoding of the human genome. In particular, it is relevant that the revolution has been focused on the discovery of new drugs and new drug targets thanks to genomics, transcriptomics and proteomics. The selection and validation of new drug targets requires a number of research strategies that have been developed recently. The aim of the School is to spread among young people in education and among those who are already working in this field, how to best use the tools offered by the most advanced research and updated. Experts, leaders in their field, were invited as lecturers. They will explain, through lectures and exercise, the following topics: chemogenomics, drug discovery, genomics; the role of high-throughput assays; the small interfering RNA; reporter gene models in vitro and in vivo; transcription factors as new therapeutic targets; chemiluminescence Integrated systems for analysis. Finally, we will sketch the lines of the future development of these technologies. In order to better facilitate the dialogue between teachers and students, there are two moments in the middle and at the end of the course, in which students will be encouraged to ask teachers questions on the topics that most interested them.

3. Applications will be accepted until all places are filled.
Failure to reach the minimum number of participants or the failure to reach the minimum budget requirements will result in the master not being activated. In the case of non-activation the Ufficio Master will run the reimbursements of the first instalment (excluding the processing the fee) according the procedures issued by the University <https://www.unibo.it/en/teaching/enrolment-transfer-and-final-examination/tuition-fees-and-exemptions/how-to-obtain-a-refund-for-non-due-fees/how-to-obtain-a-refund-for-non-due-fees>
4. Since it is impossible to predict how the COVID-19 health emergency will evolve and in order to ensure continuity, teaching activities may be delivered in a mixed format, both in person and remotely according the measures adopted by the University of Bologna.
5. Certification of the positive completion of the Summer School and the issue of 3 CFU/ECTS is subject to: payment of all fee instalments within the established deadlines; achievement of a minimum attendance of 80 %; passing the final examination (the final examination is deemed to be passed with a grade of at least 18 out of 30 or or obtaining eligibility). Any exams or progress tests carried out during the programme, at the end of each module or course unit, shall not be recorded but they will be considered, by the examination board, as an element of evaluation for the final examination.
6. It is not possible to transfer your enrolment from one Summer/Winter School to another, nor to any other course offered by the University.
7. The Programme is not subject to exemption from registration fees and university tuitions fees (D. Lgs 68/2012, art.9, comma 8).

Article 2 – Admission requirements

1. The programme is reserved for candidates who, by the time of enrolment 16 June 2021, are in possession of the following qualifications and access requirements:
