Job experience

I am a creative soul with a passion for finding solutions for the ecological transition towards regenerative and circular community models.

I have developed skills in facilitating creative and participatory processes, using techniques and methodologies borrowed from the Lean Method and Design Thinking. I strongly believe in the ability of people and communities to create effective and lasting bottom-up solutions.

2017 - current job | Italy - InVento Innovation Lab - Research and Innovation Manager

Project designer, project manager, trainer and facilitator:

- educational programmes on Sustainability and Entrepreneurship for students (from primary school to university)
- Advisor, facilitator and trainer about Sustainability and regenerative entrepreneurship (B Corp, Benefit models) for managers, executives and employees in the profit sector.
- application to funding calls (foundations, Region, Ministries, EU, etc.) and reporting.
