

## **GRIVEL Eric**

06/09/1972

Professor at Bordeaux INP, IMS lab, UMR CNRS 5218.

1993-1996: Graduate School of engineering, ENSERB, electronics (signal processing).

1996: Master degree in control, University of Bordeaux.

10/1997–01/2000: PhD in the field of signal processing, LAP laboratory, University of Bordeaux.

Contribution au rehaussement du signal de parole par filtrage de Kalman : reformulation de techniques d'identification et modèles harmoniques.  
Supervisor/ Prof. M. Najim.

09/2000–08/2001: Assistant professor (ATER), ENSEIRB/LAPS laboratory, Talence.

09/2001: Associate professor (*Maître de Conférences*), ENSEIRB/LAPS laboratory, Talence.

09/2011: Full professor (*Prof. des universités*), Bordeaux INP/IMS laboratory, Talence.

## **CURRENT RESPONSIBILITIES**

---

2018-... : Member and contact person for education in the Aerospace Valley competitiveness cluster. <https://www.aerospace-valley.com/en>

2021-...: Vice-dean of the international relations, Bordeaux INP. <https://www.bordeaux-inp.fr/en>

2023-...: In charge of the international relations commission within the INP group (Bordeaux INP, Grenoble INP, Lorraine INP, Clermont Auvergne INP). <https://www.groupe-inp.fr/>

2024-...: Special adviser “Racism and anti-Semitism” at Bordeaux INP.

## **RESEARCH ACTIVITIES AND RESPONSIBILITIES**

---

### **Topics of interest:**

- Time/frequency analysis (spectrum analysis and time-frequency/scale analysis). Signal modeling such as AR/MA/ARMA/ARFIMA/FGN processes,
- Entropy and divergence rates for process characterization or comparison (Kullback-Leibler, Jeffreys, Rényi,  $\alpha$ -divergence,  $\beta$ -divergence, Sharma-Mittal, etc.).
- Characterization of signal based on Hurst exponent (using the DFA and their variants) and multiscale analysis (MSE and variants).
- Block estimation (error-in-variable method, singular-value-decomposition based approach, etc.), recursive estimation (adaptive filters, optimal filters such as  $H_\infty$  filter, Bayesian approaches -parametric or non parametric-, Kalman filter, etc.), estimation based on evolutionary algorithms (genetic algorithms, differential evolution, etc.). Deep learning (CNN, Yolo architecture).

Since 2004: International collaborations with colleagues from University of Bologna and Come (Italy), Wakayama University (Japan), ETS (Canada), University Al Quds University, UTP (Panama), Lebanese International University (Lebanon), EPFL (Switzerland) and IISC Bangalore (India), that led to common papers, co-supervision of internships and PhD students, etc.

Since 2007: Collaborations with Thales, through PhDs, internships, projects in the field of radar processing (target tracking, waveform optimisation, clutter characterization, etc.), anomaly detection and biosignal analysis (tunneling and stress detection) that led to the co-supervision of internships and PhD students, projects, publications and patents.

Other collaborations with SMEs in Nouvelle Aquitaine and CEA.

Since 2009: Multidisciplinary projects done with colleagues working in other fields: electronics (parameter estimation of the Hodgkin-Huxley model with application to neuromimetic analog integrated circuits), psychology and physiology (stress and mental fatigue detection, attentional tunnelling detection).

### **Summary in terms of publications and supervision:**

Publications	Number
Journal papers	40
French-journal paper	1
Papers accepted in international conferences with peer review and proceedings	108
Papers accepted in international conferences without proceedings	8
Papers accepted in French conferences with peer review and proceedings	21
Papers accepted in French conferences without proceedings	2
Patents	6
<hr/>	
Supervision	
PhD students (completed)	16
PhD students (in progress)	1
Engineers (fixed-term contract from 3 to 24 months)	17
Internships	42

### **Recent talks:**

- University Abomey-Calavi, Benin, 18/01/2023: « extraction of relevant markers in machine learning approaches ».
- University de Stellenbosch (South Africa), 16/03/2023: « Focus on research in the field of statistical data processing ».
- University du Luxembourg, SNT, 11/10/2023, « Contributions to the analysis of biosignals: variants of DFA and MSE ».
- University du Luxembourg, SNT, 11/10/2023, « Contribution to target tracking in radar applications, based on a Bayesian approach ».

### **Responsibilities:**

2007-2014: Head of the research team « Detection and estimation in localization and communication systems », IMS laboratory, Toulouse

2014-2022: Head of the Scientific Interest Group *GIS Albatros*, between THALES, University of Bordeaux, Poitiers et Limoges, Bordeaux INP, INRIA and CNRS. Research activities conducted in different fields (electronics, signal and image, human factor, AI, cybersecurity, etc.) through PhDs, internships, projects and studies, patents and publications, organization of workshops.  
<https://www.bordeaux-inp.fr/fr/gis-albatros>

### **Others:**

Reviewing for IEEE Trans. on SP, Elsevier Signal Processing, Digital Signal Processing, International Journal of Adaptive Control, Hindawi Mathematical problems for engineering, Physa and for conferences such as NEWCAS, ICASSP, EUSIPCO, GRETSI, IFAC et GSI.

2023-2026: Member of the IEEE SPS Scholarship Committee. My role is to define scholarship criteria, evaluate applications for new scholarships and renewals, request scholarships through donations to the fund for students and young professionals in signal processing. IEEE.

Member of Eurasip, IEEE and French association such as club EEA and GdR ISIS.

## **TEACHING ACTIVITIES AND RESPONSIBILITIES**

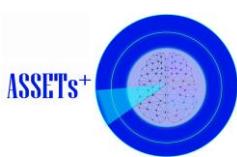

---

More than 250 hours given each year at Bordeaux INP in the field of signal processing: introduction to signal processing, digital signal processing, random signals and process, filtering and estimation, spectrum analysis, adaptative and optimal filtering.

**Other experiences in teaching** at University of Bordeaux, CNAM (2003-2004), 2 training programs for workers from SMEs with JESSICA France and for workers working at CEA (5 from 2007 to 2013), but also in foreign countries (University Al Quds, Jerusalem, MASTER GEI, University of Pisa in the PhD program for a lecture in spectrum analysis).

I was also involved in the creation of graduate schools of engineering in Bordeaux (ENSPIMA and ENSC).

### **European projects**

2017-2019: Seasonal schools dealing with Next gEneration netwoRked mEdia over 4G+ infrastrUctureS. 5 European partners.

2020-2024: Alliance for Sustainable, Strategic supply of Skills addressing Emerging Technologies in Defence. 4 M€, 30 partners including Universities, Industry, VET, enablers such as clusters, etc.  
<https://assets-plus.eu/>

In 2020, I put in place the European Defence Challenge. It is not included in the ASSETS+ project. The 5th edition will be launched in May 2024).  
<https://assets-plus.eu/challenge/>

### **Summary in terms of publications**

Publications	Number
Pedagogy	9
Chapter in books	14

### **Responsibilities**

- 2001-2010/2022-... In charge of the internships (BAC+4/5) in the educational and training program in Telecommunications at ENSEIRB-MATMECA.
- 2002-2008: In charge of the last year of the educational and training program in Telecommunications (BAC+5) at ENSEIRB-MATMECA.
- 2008-2010: In charge of the 2nd year of the educational and training program in Telecommunications (BAC+4) at ENSEIRB-MATMECA.
- 2003-2010: In charge of the master degree in signal and image processing, University of Bordeaux.
- 2010-2017: Head of the Telecommunications department, at ENSEIRB-MATMECA, Bordeaux INP.
- 2017-2021: In charge of the projects of the 2<sup>nd</sup> and last year of the educational and training program in Telecommunications (BAC+4 and +5) at ENSEIRB-MATMECA, sponsored by companies like Thales, Orange and ATOS.

## Appendices

### *Books*

---

- [B 1] "Modeling, estimation and optimal filtering", M. Najim, ISTE. 2008. Contribution in several chapters
- [B 2] "Modélisation, estimation et filtrage optimal en traitement du signal", M. Najim, Hermes. 2006. Contribution in several chapters
- [B 3] "Digital Filters Design for Signal and Image Processing", livre sous la direction de M. Najim, ISTE. 2006. Co-auteur de 7 chapitres.
- 3.1. "Introduction to signal and systems", Y. Berthoumieu, **E. Grivel** and M. Najim. pp. 1-19.
  - 3.2. "Discrete-time system analysis", M. Najim and **E. Grivel**. pp. 21-50.
  - 3.3. "Spectral features of a signal and a filter", **E. Grivel** and Y. Berthoumieu. pp. 51-97.
  - 3.4. "Continuous-time filters (analog filters)", D. Bastard and **E. Grivel**. pp. 99-135.
  - 3.5. "Finite Impulse Response filter (FIR)", Y. Berthoumieu, **E. Grivel** and M. Najim. pp 137-172.
  - 3.6. "Infinite Impulse Response filter (IIR)", **E. Grivel** and M. Najim. pp. 173-189.
  - 3.7. "Selecting the structures for FIR and IIR filters", M. Najim and **E. Grivel**. pp. 191-232.
- [B 4] "Synthèse de filtres numériques pour le signal et les images", livre sous la direction de M. Najim. Traité IC2, Edition Hermes. 2004. Co-auteur de 7 chapitres. In French
- 4.1. "Généralités sur les signaux et les systèmes", Y. Berthoumieu, **E. Grivel** et M. Najim, pp. 19-38.
  - 4.2. "Analyse de systèmes discrets", M. Najim et **E. Grivel**, pp. 39-71.
  - 4.3. "Caractérisation fréquentielle d'un signal et d'un filtre", **E. Grivel** et Y. Berthoumieu, pp. 73-116.
  - 4.4. "Les filtres à temps continu", D. Bastard et **E. Grivel**, pp. 117-159.
  - 4.5. "Les filtres à réponse impulsionnelle finie", Y. Berthoumieu, **E. Grivel** et M. Najim, pp. 161-197.
  - 4.6. "Les filtres à réponse impulsionnelle infinie", **E. Grivel** et M. Najim, pp. 199-217.
  - 4.7. "Structures des filtres RIF et RII", M. Najim et **E. Grivel**, pp. 219-261.
