RENEWABLE ENERGY & INTERNATIONAL DEVELOPMENT PROFESSIONAL

Date of Birth:

Phone:

LinkedIn

Address: Milan, Mi (Italy)

Languages: **Italian** (mother tongue);
English (C1); **French**(B1),
Spanish (B1)

PERSONAL PROFILE

I firmly believe there is no future without inclusive and comprehensive policy in the energy sector and investments to boost new technologies are very much needed, with a focus on the just and equitable transition. I have been involved in rural electrification projects in several sub-Saharan countries, an experience that has changed my perception of the world and particularly how crucial energy is for economic and social development. Now we need to help countries reaching net zero target by 2050.
