

LIVIA TOLVE, Curriculum Vitae (ENG)

EDUCATION

2019/2020 Master graduated in *Conservazione ed Evoluzione* at the University of Pisa (110/110 cum laude), with the thesis *Drone aerial survey: a new method for monitoring sea turtles in offshore areas*; supervisor Prof Paolo Casale

2014/2015 Bachelor graduated in *Scienze Biologiche* (Class L-13) at the University of Florence (110/110 cum laude), with the thesis *Struttura genetica e origine di popolazioni adriatiche della tartaruga marina comune (*Caretta caretta*) mediante analisi di sequenza del DNA mitocondriale*; supervisor Prof Claudio Ciofi

2011/2012 High school graduated at *Liceo Classico Niccolò Forteguerri*, Pistoia (100/100)

WORKING EXPERIENCE

PhD PON in Evolutionary Biology and Ecology, project title *Sequenziamento di genomi di riferimento di specie non modello per la conservazione della biodiversità e dei servizi ecosistemici Europei*
(Gennaio 2022 – ongoing)

Employee in Ministero della Transizione Ecologica (MITE)
(marzo 2022 – ongoing: at the moment off work for attending the PhD)

Research grant at the Department of Biology (University of Florence), *Analisi di genomica di popolazione di tartarughe marine*
(Febbraio 2021 – Dicembre 2021)

Principal Investigator at Tethys Research Institute –CSR project (Cetacean Sanctuary Research)
(August 2020; July - August 2019; July 2018)
Main activities:

- Data collection about spatial distribution, behaviour and bioacoustics of Delphinidae, Ziphidae, Mysticeti
- Logistic and administrative coordination of the life on board
- Scientific teaching of the volunteers on board

Part-time collaboration at the University of Pisa, Ludoteca Scientifica
(September – December 2019)

Continuative Autonomous Collaboration as Dialoger at Amnesty International
(January - February 2019)

SCIENTIFIC RESEARCH EXPERIENCES IN LABORATORY

Molecular Ecology Laboratory, University of Florence

Main activities:

- Genomic DNA extraction from animal necropsies and biopsies
- Polymerase Chain Reaction of mitochondrial DNA
- Electrophoresis on agarose gel
- Mitochondrial DNA sequencing by means of capillary electrophoresis (ABI3130 Genetic Analyzer)
- Genomic libraries preparation and sequencing on Illumina platforms
- Bioinformatic analysis of genetic data

FIELDWORK EXPERIENCES

Within the master thesis internship, data collection about distribution at sea of marine turtles by means of aerial drone survey

(September – October 2017; June – September 2018)

Fieldwork in Lampedusa, within the Life project *Euroturtles: collective actions for improving the conservation status of the EU sea turtles populations*

(September - October 2017, June – September 2018)

Main activities:

- Cooperation with fishermen, diving centers and touristic boats for the sharing of capture data and position data of turtles at sea
- Divulgation among tourists and locals about conservation and biology of sea turtles
- Data collection by means of questionnaires, about public perception and willingness to pay for marine environment conservation

Research assistant at Tethys Research Institute – CSR project (Cetacean Sanctuary Research)

(summer 2014, 2015, 2016, 2017, 2018)

Principali attività:

- Collaboration in the data collection about spatial distribution, behaviour and bioacoustics of Delphinidae, Ziphiidae, Mysticeti
- Logistic coordination of the volunteers activities and the life on board

SCIENTIFIC PUBLICATIONS

Agabiti et al. Combining UAVs and multi-sensor dataloggers to estimate fine-scale sea turtle density at foraging areas: a case study in the central Mediterranean. *Endang Species Res.* 2024; 54:395-408. <https://doi.org/10.3354/esr01350>

Ballini et al. Early detection of rare and elusive endangered species using environmental DNA: a case study for the Eurasian otter and the white-clawed crayfish in northwestern Italy. *Conservation Genetics.* 2024; 25, 999–1005. <https://doi.org/10.1007/s10592-024-01619-5>

Tolve, L, Iannucci A et al. Whole mitochondrial genome sequencing provides new insights into the phylogeography of loggerhead sea turtles (*Caretta caretta*) in the Mediterranean. *Mar Biol.* 2023; 171:19. <https://doi.org/10.1007/s00227-023-04325-x>

Casale, P, Ciccocioppo, A, Vagnoli, G, et al. Citizen science helps assessing spatio-temporal distribution of sea turtles in foraging areas. *Aquatic Conserv: Mar Freshw Ecosyst.* 2020; 30: 123– 130. <https://doi.org/10.1002/aqc.3228>

Tolve, L, Casale, P, Formia, A, et al. A comprehensive mitochondrial DNA mixed-stock analysis clarifies the composition of loggerhead turtle aggregates in the Adriatic Sea. *Mar Biol.* 2018; 165: 68. <https://doi.org/10.1007/s00227-018-3325-z>

CONTRIBUTIONS AT SCIENTIFIC CONFERENCES

Oral presentation at SIBE (Società Italiana di Biologia Evoluzionistica) Congress 8 - 11 September 2024, Napoli: Disentangling the global phylogeography of *Caretta caretta* by whole mitochondrial DNA analysis

Poster presentation at the 83° UZI (Unione Zoologica Italiana) Congress 11 – 14 September 2024, Pisa: Preliminary inference of patterns of loggerhead sea turtle colonization of the Tyrrhenian coastline using mitochondrial genome analysis

Poster presentation at the 33° Congresso Nazionale SItE (Società Italiana di Ecologia) 23 -26 September 2024, Roma: Preliminary inference of patterns of loggerhead sea turtle colonization of the Tyrrhenian coastline using mitochondrial genome analysis

Oral presentation at the Virtual Congress EVOLMAR 2023, 14 -17 November 2023 Whole mitochondrial genome sequencing provides new insights into the phylogeography of loggerhead turtles (*Caretta caretta*) in the Mediterranean Sea

Oral presentation, 41st International Sea Turtles Symposium Cartagena de Indias, Colombia, 2023. Whole mitochondrial genome sequencing provides new insights into the phylogeography of loggerhead sea turtles (*Caretta caretta*) in the Mediterranean.

Oral presentation, 9th SIBE Congress, Ancona, 2022. Whole mitochondrial genome sequencing provides new insights into the phylogeography of loggerhead sea turtles (*Caretta caretta*) in the Mediterranean.

Poster presentation, 6th Mediterranean Conference on Marine Turtles. Porec, Croatia 2018: *UAV offshore aerial survey for abundance estimates of sea turtles: a case study in Lampedusa island, Italy.*
