EDUCATION

University of Bologna

Nov 2021–ongoing

Ph.D. in Physics PhD position in Physics of Complex Systems.
Thesis submitted and awaiting review, expected defense in March or April 2025.
Thesis: *Applications of Delay Differential Equations to the Physics of Complex Systems*.
Supervisor: Prof. A. Bazzani
Research topics:

- Dynamical network models for the neurosciences
- Effective Delay Differential Equation models for dynamical stationary states on directed graph structures
- Epidemiological models
- Linear response and predictivity studies in distributed delay epidemiological models
- Simplified modelling of noisy neural dynamics

University of Bologna

Oct 2018–Sept 2021

M.Sc. in Physics 110/110 cum laude
Dissertation: *Synchronisation Phenomena in Complex Neuronal Networks*.
Supervisor: Prof. A. Bazzani
Curriculum: Theoretical Physics

University of Bologna

Oct 2015–Dec 2018

B.Sc. in Physics 110/110
Dissertation: *Entropic Measures in Human Mobility: the BellaMossa database in Bologna*.
Supervisor: Prof. A. Bazzani

Conservatorio di Musica “Giovanni Battista Martini” Oct 2023–Ongoing

Corso Propedeutic (pre-academic) course in classical Trumpet.
Propedeutico in Tromba

AFFILIATION TO SCIENTIFIC INSTITUTIONS

Istituto Nazionale di Fisica Nucleare
Bologna Section

Nov 2021–Ongoing

INFN Since the beginning of my PhD I have been affiliated to the
Theoretical Italian National Institute of Nuclear Physics, within the The-
*Group affiliation*oretical Group in the LearnINg CompLex Networks (LINCOLN) specific initiative, concerned with the study of Complex Systems.

TEACHING EXPERIENCE

University of Bologna	Mar 2022–May 2024
<i>Laboratory assistant</i>	I have been a laboratory assistant in the Computer Programming laboratory of the programming course for the B.Sc. in Physics at the Department of Physics and Astronomy. My activities have been carried out mainly in the periods from March to April of 2022, April to May and September to December 2023 and May 2024.

OUTREACH EXPERIENCE

Università di Bologna, Campus di Rimini	Sep 2023
<i>European Researchers Night</i>	I have organized, with the rest of the research group and a B.Sc. thesis student, some outreach demonstrations on control theory and the synchronization of metronomes, with interactive experiments for the public of the event. I have also participated in a brief piece of video content showcasing one of the experiments, available on some of the University of Bologna outreach social media .

PERSONAL INTERESTS

Collegium Musicum Almae Matris	Nov 2017–Ongoing
--------------------------------	------------------

Since 2017 I have actively participated in the music association of the University of Bologna, the Collegium Musicum Almae Matris. Within the association I have taken part in the activities of both a larger and a chamber choir as a singer, and I have played in the symphonic orchestra. In collaboration with two other members of the association, I founded a wind band within the Collegium Musicum in October 2022 and coordinated its activities ever since. I have also been a member of the association Directive Council for a year, from June 2023 to June 2024.
