Manager of IT, Organization and Communication Department Fondazione Edmund Mach

Reporting to Managing Director, with about 20 people reporting directly to me as well as some reporting indirectly via other departments, I built this new structure by combining offices and existing groups. With this new structure I streamlined IT infrastructure and increased the visibility of the company.

- IT manager for infrastructure, the application area and joint projects with the research centre and the area of teaching and technology transfer
- Internal and external communication manager, both traditional (Press Office, newspapers, TV, events etc.) and new media based (intranet, social networks, online corporate branding etc.)
- Management of the library and its projects

Website <http://www.fmach.it>

2005 – 2011 Bologna, Italy

● **ICT Manager** Municipality of Bologna

Reporting to the CIO I had about 40 people reporting directly to me.

- I was in charge of the entire IT infrastructure of the institution consisting of more than 3000 clients spread over about 80 locations and two Datacentres with about 200 virtual servers
- I also coordinated and managed IT application projects
- I participated actively in projects in the area of external and internal communication (intranet)

Website <http://www.comune.bologna.it>

1997 – 2004

● **IT Architect** IBM Italy

Reporting to Services Management as IT Architect:

- I participated in the design and management of complex IT infrastructure projects for industrial, banking, public and academic customers
- I was specialized in network management, information security and server management
- I had an assignment at the IBM labs in Raleigh (NC-USA) for a research period on administration tools of complex networks
- I obtained the Microsoft MCSE and Linux LPI certifications

Website <http://www.ibm.com>

1983 – 1997

● **IT Specialist** IBM Italy

Reporting to Services Manager I carried out systems engineering activities for industrial, banking, public and academic customers with particular attention to issues of network management, information security and management of clients and servers.

1982 – 1983 Roma, Italy

● **Researcher** IBM Rome Research Labs

Research on image processing digital technology at the IBM Research Labs in Rome.

ORGANISATIONAL SKILLS

Organisational skills

I have managed units consisting of a few dozen employees, even across multiple levels of management, and participated in the project management of complex and heterogeneous working groups. I am strongly oriented to the development and professional growth of my co-workers, including through mentoring activities, and I have been involved in the selection of technical staff.

COMMUNICATION AND INTERPERSONAL SKILLS

Communication and interpersonal skills

I developed excellent skills in public communication as a trainer during the experience at IBM. My skills were recognized during my time as a university lecturer and in several conferences in which I participated as "keynote speaker.". I have applied this expertise in selecting and preparing speakers for several TEDx events

JOB-RELATED SKILLS

Job-related skills

I am an ICT Manager with more than 40 years of experience in the IT world gained mainly within IBM; for some years now I have also been involved in communications. I have developed IT skills, both infrastructural and application, in the main specialized areas (industry, banking, public sector, university and research, etc.) and operational skills on communication issues. Both on a corporate and personal level, I have actively participated in the Open Source and Open Data communities.
