Communication skills

- Good communication skills gained through my experience as medical oncology resident, often dealing with difficult situations and bad news given to the patients

Organizational and management skills

- Excellent organizational sense and good managerial experience gained during the organization and coordination of activities in university and para-university study groups

Professional skills

- Independently protected clinical assistance for patients in cardiology departments, cardiological Intensive Care Units and specialist outpatient clinics
- Reporting cardiac MRIs and stress cardiac MRIs
- Performing transthoracic and transesophageal echocardiography
- Performing right heart catheterization
- Reporting of standard and dynamic ECG
- Support in the hemodynamics and electrophysiology room
- Specialist consultancy in various departments and in the Emergency Department

Computer skills and competences

- Windows and iOS operating systems
- Full Office package
- Unified communication and collaboration platforms: Microsoft Teams, Google Meet, Zoom Cloud Meetings, Skype
- Statistics software: Statistical Package for Social Science (SPSS)
