EDUCATION

2023.11 – Present	Phd candidate	Law, Science and Technology	Alma Master Studiorum-University of Bologna
2020.09 – 2023.06	LLM	International Law, International Space Law	Xiangtan University (XTU), Hunan Province, China
2016.09 – 2020.06	LLB	International Law	Xiangtan University (XTU), Hunan Province, China

SELECTED HONORS

- Chinese Government Scholarship for Overseas Study(CSC)(2023)
- National Scholarship for Graduate Student (XTU)(2022)
- First-class Academic Scholarship of XTU(2022,2021,2020)
- First Prize for Outstanding Paper at the China Space Law Annual Conference, China Space Conference 2021
- Outstanding Speaker of the International Forum on the Rule of Law in Outer Space, "Global Governance of Outer Space in the New Era: Challenges, Changes and Development", China Space Conference(2021)
- Third prize for the group at the 18th Manfred Lachs Space Law Moot Court Competition CASC. Conducted mainly clerical arguments(2021)
- First Prize for Outstanding Paper at the China Space Law Annual Conference, China Space Conference 2020
- Outstanding college student essay (2020)
- Third prize for the group at the 15th Manfred Lachs Space Law Moot Court Competition CASC. Contributed clerical arguments(2020)

II. ACADEMIC CONFERENCES AND AWARDS

- China Space Conference (2022,2021,2020)
- The 7th China (International) Commercial Space Summit (2021)
- The Young Scholars Forum on "International Rule of Law in Outer Space and China's Contribution" organized by East China University of Political Science and Law (2021)
- Participated in the sixth Manned Space Conference (2021)

III. PROJECTS

Presided Projects

- Presided over the summer research project of the Xiangtan University Law School, "Empirical Research on the Development and Legal Protection of Commercial Space Industry in Hunan Province under the Background of Civil-Military Integration", which is now ready to be completed. (2021-2020)

Participation in projects

➤ **Projects of The National Social Science Fund of China(NSSFC)**

- [1]Research on Space Trade Control and Legal Regulation Based on Space Competition(2016)(**Project No.16BGJ024**);[2]Research on African Indigenization Legislation(2019)(**Project No. 19VJX062**);[3]Research on the legal mechanism of international cooperation on China's Space Station(2022)(**Project No.22CFX046**)

■ These three projects of the National Social Science Found of China have greatly improved my writing and innovation ability, broadened my research horizons, and won the recognition of the project leader. In terms of the research content, **first**, I become familiar with the development of the European commercial space industry and the basic legal systems and policies of European commercial space, and put forward sound suggestions for China's development of commercial space; **second**, the three projects provides practical legal advice for Chinese enterprises to invest in Africa through studying the localization legislation in Africa, the risk assessment report on Chinese investment in Zambia, Gambia and Cameroon was made, especially in the post-epidemic era; **third**, I will continue to deepen the research on international cooperation of the Chinese space station, which is the topic that the young teacher in charge of the project from China University of Political Science and Law invited me to participate in. And this is very important to the development of China's manned spaceflight. This not only is a recognition of my ability, but also provides a platform and opportunity for me to continue the research of the space station cooperation project.

➤ **Projects of the China Institute of Space Law(CISL)**

- [1]The Governance Mechanism of Outer Space Resources Development: Comparison and Reference among New Frontiers(2020-2021);[2]Research on the Legal Issues of International Cooperation on China's Space Station(2019-2020);[3]Research on China's Laws and Policies on the Exploitation and Utilization of Outer Space Resources(2018-2019)
- The in-depth research of the Chinese Institute of Space Law that I participated for the past three consecutive years allows me to greatly improve my teamwork ability and make me competent in declare and complete research projects. In 2022-2021 project, I invited the doctoral students of the University of Hong Kong, teachers and doctoral students of Xiangtan University and graduate students from Zhejiang Normal University to participate in the project research, which greatly promoted my teamwork ability and coordination ability. In addition, by participating in space congresses, I got opportunities to be recognized and recommended by top scholars in the field of international and national space law.

➤ **Xiangtan University Postgraduate Research Innovation Project**

- [1]Legal Protection of Personal Location Data of BeiDou Satellite Navigation System(2020-2021); [2]Identifying and Preventing Intellectual Property Risks in 6G Industry under the Overall National Security View (2020-2021) ; [3]Research on the recognition of infringement of copyright in China (2020-2021)
- These three university-level projects are applied by the research team composed with doctoral students. In order to expand the breadth and interactivity of the research field, we regularly hold academic seminars and launched argumentations collectively on related projects. This has enhanced my interdisciplinary research capabilities and provided me with more perspectives in space law research.

QUALIFICATION AND LANGUAGE SKILLS

- Bar admission status: Obtained China Legal profession qualification certificate
- Language (Expected result): IELTS 6.0
- Hobbies: Writing and Marathon, Internet Community Operations
